

BOSWELLIA SPRAY

AFTER WORKOUT LEG SPRAY

Safe & Effective for Daily Use

Rhulief Balm has active ingredients of menthol and camphor in a base of boswellia, eucalyptus, coconut oil, sesame oil, and beeswax. Boswellia, the key ingredient, has a number of beneficial compounds including AKBA (acetyl-11-keto- β -boswellic acid). Unlike unstandardized boswellia, which has compounds not associated with healthy benefits, our spray uses a unique process that ensures at least 10% AKBA, the right compounds.

THE RESULT? Your horse will get the support they need from this cooling, fast-acting, topical spray.

As a horse enthusiast, you'll also want to know about these additional fine products:

- **Comfrey Cream**—a topical cream for joints, muscles, and skin. A “must have” for every tack box.
- **Curamax™**—feed pellets containing powerful curcumin, standardized boswellia and more for occasional joint stiffness, soreness, discomfort, or muscle pain.

INGREDIENTS:

Boswellia (*Boswellia serrata*) gum resin oil, 4% menthol, boswellia (*Boswellia serrata*) gum resin extract, 2% camphor, flax (*Linum usitatissimum*) seed oil, and turmeric (*Curcuma longa*) rhizome extract, in a base of olive oil.

DIRECTIONS:

Spray and rub down on joints and muscles. Use as often as needed. Perfect after your horse's daily workout routine.

WARNINGS:

- For external use on equines only, not for use on other animals.
- Do not apply to open wounds, damaged skin, or if excessive skin irritation occurs.
- Do not bandage tightly
- Do not apply with heat.
- Avoid spraying near eyes.
