Terry Naturally Animal Health brand products contain natural and other premium ingredients.

**What's Inside:**

Boswellia Balm has boswellia along with menthol and camphor in a base of coconut fruit oil, beeswax, and sesame seed oil. Boswellia, the key ingredient, has a number of beneficial compounds including AKBA (acetyl-11-keto-B-boswellic acid). Unlike unstandardized boswellia, which has compounds not associated with healthy benefits, our balm uses a unique process that ensures at least 10% AKBA, the desired compound. The result? Every horse can get the support they need in a cooling, fast-acting, topical balm. Choose Boswellia Balm from Terry Naturally® Animal Health.

**It's a good idea to keep Boswellia Balm in your tack box, where it's always just a "grab away" for your active horse to experience a multitude of benefits.**
